WORK EXPERIENCE

Lead Web Developer & UX Designer

Energy Alternatives Pakistan

March 2025 – December 2025 Lahore, Pakistan

- Built a fully responsive corporate website for a leading Pakistani solar energy provider.
- Integrated modern UI/UX with optimized navigation to highlight services, certifications, and a 565+ MW portfolio.
- Developed an interactive **Get a Quote** form with system selection, usage input, and automated cost/savings estimation.
- Applied SEO strategies to boost visibility and user engagement.
- Delivered a high-performance platform aligned with the company's clean energy vision.

Web Developer

DSG Energy

Jan 2024 – Feb 2025 Lahore, Pakistan

- Designed and developed a fully responsive corporate website using HTML5, CSS3, and JavaScript.
- Implemented dynamic service pages showcasing renewable energy solutions and project case studies.
- Optimized site performance through image compression, lazy loading, and efficient code structuring.
- Collaborated with the marketing team to align web content with brand messaging and SEO strategies.
- Maintained and updated website content regularly to reflect new services and company milestones.

Junior Web Developer

Vue Driving School - UK

April 2023 – December 2023 Remote (UK)

- Designed and developed a responsive website for Vue Driving School, enhancing user experience and mobile accessibility.
- Integrated an online course booking form and location-based contact options, improving enrollment efficiency.
- Applied SEO optimization strategies to increase site visibility and attract more student sign-ups.

Shopify Developer

Sultania (sultania.pk)

May 2022 – Sep 2022 Lahore, Pakistan

- Built and maintained a Shopify store offering stitched and ready-to-wear outfits across seasonal collections.
- Implemented free shipping promotions, seamless order tracking, and visually appealing collection displays.
- Enhanced shopping convenience and customer experience through intuitive UI/UX.
